

# WELCOME TO Niagara-on-the-Lake Wine Country!

We're 28 wineries nestled below the Niagara Escarpment amidst a landscape of vineyards and orchards that stretches to the picturesque Niagara River Parkway and the shores of Lake Ontario. We're a close-knit neighbourhood of wineries just minutes from each other, each with a unique personality. You'll see this when you step up to our doors. And you'll taste it in our wines.

From the sleekness of glass and steel to the warmth of stone and wood, our wineries are expressions of our personalities. Visit our large estates, medium-size operations and small boutiques (we recommend that you mix it up) and you'll see that when it comes to our wines, size doesn't matter. Behind the doors to each winery you'll find friendly staff, stylish and relaxed tasting rooms and a wide range of wines to sample. Here, you can experience the life of a winery. Sample rare vintages, special reserves, new releases, or small batch specialties – many only available at the winery. Take a tour behind the scenes. Feel free to ask questions. We're happy to share what we know.

## YEAR-ROUND EVENTS

Visit our website at [www.wineriesofniagaraonthelake.com](http://www.wineriesofniagaraonthelake.com) for listings of winery events, download wine-themed touring itineraries and sign up to receive our e-updates. In addition to hundreds of year-round events at our individual wineries, the Wineries of Niagara-on-the-Lake present a series of Signature Events. See website for details.

November – Taste the Season  
January – Icewine Festival  
February – Days of Wine & Chocolate  
May – Wine & Herb

TWENTY-EIGHT DISTINCTIVE WINERIES.

TWENTY-EIGHT DISTINCTIVE WINERIES.  
*One unforgettable place.*

## About our terroir

If you're new to wine-speak, the term "appellation" simply means name, or designation. It's commonly applied in wine-growing regions to clearly identify the grape's region of origin. When you're renowned for making terroir wines - wines that express the grape and the vineyard - it's important that the birthplace be noted. This is *why* we take it very seriously. You see, not only do we want you to know that our wines are made in Niagara-on-the-Lake, we want you to know exactly where in Niagara-on-the-Lake your wine was conceived.

Within the designated viticultural (grape-growing) area known as the Niagara Peninsula, Niagara-on-the-Lake has been classified by VQA Ontario (Vintners Quality Alliance Ontario) as a distinct area. We're bordered by the Niagara Escarpment, Lake Ontario and the Niagara River and our wineries share a climate moderated by the unique relationship between the Escarpment and Lake Ontario. Yet, across this expanse of land, our wineries are differentiated by geology, soils, elevation, and even variations in temperature and precipitation that create unique conditions for the production of grapes and wine.

A recent comprehensive study revealed four distinct growing areas, or sub-appellations, within Niagara-on-the-Lake. The official designations are:

**NL** **Niagara Lakeshore** The land gently slopes and vineyards and orchards receive abundant sunlight. Temperatures are moderated by lake breezes, and light sandy and silt soils provide good drainage. Grapes and fruit produce full-bodied, flavourful wines.

**FM** **Four Mile Creek** This is the largest of the four sub-appellations in Niagara-on-the-Lake. It lies below the Escarpment, slightly inland, and stretches into an expansive flat, fertile plain. Red shale soils contain silt and clay, retaining water well. Conditions are optimal for growing many premium grape varieties.

**SB** **St. David's Bench** The topography is varied in this area that was carved by glaciers to form a natural bench below the Escarpment. Vineyards are planted on gentle slopes to allow for good drainage in the deep, rich clay soils. The escarpment location helps vineyards develop early in the spring and provides frost protection.

**NR** **Niagara River** The picturesque Niagara Parkway winds along this narrow band that borders the Niagara River. Vines dig deep into the well drained sandy soils and air currents from the river moderate temperatures and help protect vineyards. The reddish-hued soils also tend to warm earlier in the spring. Tender grape varieties thrive.
